

EMPATHY MAP CANVAS

Project: Metro Ticket Generation System Using ServiceNow

Empathy Map Analysis

Section	Professional User Insight
Think & Feel	The user expects a seamless, secure, and reliable digital ticketing experience with minimal friction.
See	QR-enabled ticketing, live train updates, mobile application interface, and digital payment options.
Hear	Recommendations from commuters, metro announcements, customer support, and social media feedback.
Say & Do	Searches routes, compares fares, books tickets online, scans QR codes, and checks journey status.
Pain	Crowded ticket counters, transaction failures, delayed updates, and complicated booking processes.
Gain	Quick access, reduced waiting time, cashless payments, real-time information, and eco-friendly options.
